\$1.50 PER YEAR

BANK SAVINGS

\$150 PER HEAD

The success of the Victory Loan should be overwhelming. With savings bank deposits totalling \$1,227,000,000 and the co-operation of depositors and bankers Victory Loan workers have good material upon which to work. The figures are taken from the official statement of the Canadian chartered banks issued at Ottawa. They show another good increase in savings bank deposits, amounting to 30,000,000 over the August figures and of \$189,000,000 over September 1918. The saving of the people quite apart from the commercial balances. They represent the thrift and economy which Canadians are practicing in view of the Loan campaign, and it is eminently satisfactory to find that they work out at over \$150 for every Canadian

man, woman and child on over \$750 per family. As indices to prosperity and industry \$1,227,000,000 in saving banks deposits is a eloquent, indeed.

Winter In a Warmer Climate

Are you planning to spend all or part of the coming winter on the north Pacific Coast or California? The Grand Trunk Pacific Railway is the choice scenic route. For full particulars apply to any Agent of the Grand Trunk Pacific Ry. or write W.E. Duperow, General Passenger Agent, Winnipeg.

Winnipeg, Nov. 10th. — The matter of forming a political party will be put squarely up to returned soldiers at a mass meeting here on Nov. 20. There is little doubt that a khaki party will be started and the chief matter of speculation is the platform and choice of leaders.

TWO MINUTES' SILENCE ON 11th

In accordance with the wish of King George, and in common with other communities the British Empire through, a two-minute period of silence in honor of Armistice day and in respect to the memory of the empire's heroic dead was observed last Tuesday forenoon.

At the stroke of the eleventh hour, which is the hour when the guns ceased to roar on the battle front, just one year ago, Nov. 11th, all activity ceased for two minutes.

The situation with respect to livestock in southern Alberta is exceedingly alarming, according to the latest reports. Estimates as to the losses which are liable to occur within the coming winter months, run as

high as 75 per cent. Some estimates range about 50 per cent. Comparison with the year 1900, when winter set in so early, shows great similarity of conditions as regards stock, with the exception, which adds to the seriousness of the situation, that this year was a dry year and there is practically no grass for the stock.

Card of Thanks

On behalf of the Ladies' Aid Society of the Methodist church I wish to thank all those who helped to make the Harvest Home Supper the huge success that it was on Nov. 10th.

Mrs. H. C. Brewster, Pres.

Make Your Dreams Come True

Fond parents dream of a bright future for their children.

They dream of the literary and musical education they are going to give their daughter, and of the high position she will take in her sphere of womanhood.

They dream of the education they are going to give their son and vision him some day as a clergyman, a famous lawyer, an eminent physician, a prominent financier, or a captain of industry.

But to make these dreams come true

—or even partly true—requires foresight, planning and money.

To provide the money what plan so wise as to buy Victory Bonds for each child?

Thousands of parents bought Victory Bonds for their children in 1917 and 1918.

Surely you will be among the thousands of loving parents who will buy Victory Bonds for their children—this year?

Victory Bonds may be bought on instalments at such easy terms that every parent who so wishes may buy

Buy Victory Bonds For Your Children

Drastic Regulations To Conserve Fuel

Chicago.—New restrictions on the use of soft coal are announced. In some localities orders were more drastic than during the war, but the general situation showed little change.

While production in West Virginia and Colorado was reported increased, there was no noticeable change in the ranks of the 425,000 striking miners.

Sixty-six trains were stalled by the Chicago and Northwestern and the Chicago, Milwaukee and St. Paul railroads.

Indiana's public service commission took the most drastic action in the domestic field. It decreed lighter electric lights, discontinued the use of signs, coal gas for heating and other advisable restrictions of service by public utilities, with less than a two weeks' supply of coal.

With calls for assistance from communities suffering from a coal shortage growing more numerous, the railroad administration stressed the use of every available car to meet the appeals made for fuel.

Orders went to regional directors of the nation's railroads from Director-General Hines, to eliminate train service where absolutely necessary in the public interest, but it was officially announced that no general curtailment of service was contemplated.

Russian Government Must Change

Alles Will Continue Economic Pressure Till Democratic Government Is Formed

London.—The present measures of economic pressure on Russia will continue until a democratic government is established in Russia, which can be recognized by the allies, according to a statement made in the House of Commons by Under Secretary for Foreign Affairs Horne.

Germans Defeated at Libau

Troops Were Supported by Light and Heavy Artillery and Armored Train

Copenhagen.—German troops, presumably belonging to Col. Avasoff, Bernsdorf's forces, supported by heavy and light artillery and an armored train, attacked Libau, but were driven off by Lithuanian troops, who were supported by Russian troops, according to a dispatch received by the Lithuanian press bureau.

In the afternoon a German airplane dropped proclamations on the city. After a prolonged bombardment, by the enemy artillery, a new violent offensive was launched by the Lithuanians. It was repulsed by the Lithuanians. The enemy suffered heavily.

Wounded British Sailors

London.—Wounded British blue-jackets aboard the British hospital ship Princess Margaret have arrived at Copenhagen harbor, the Lithuanian press bureau reports. They are from the British cruiser Dragon, which was hit by a German shell, killing nine and wounding four men.

U.S. Thanksgiving Day

Washington.—President Wilson has set aside Thursday, November 27, as Thanksgiving Day, in a proclamation, which said the country looked forward "with confidence to the dawn of an era where the sacrifice of the nations will find recompense in a world at peace."

Labor Decides on Hours of Work

Washington.—After nearly five hours of constant fighting, the national labor conference adopted the 48-hour week convention of the organizing committee as a "basis for discussion." But as to exactly what that means the delegates are not agreed. Does adoption of the motion constitute discussion to the application of the 48-hour week, or will amendments be submitted for a maximum eight-hour day and the 48-hour week is the question all sides are asking.

The vote came on a motion presented by Mr. Barnes, British government delegate, that "the draft convention prepared by the organizing committee be adopted by the conference as the basis for discussion."

Restoration of Ruined France

Plenty of Work For Every Idle Man in Europe During the Next Eight Years

Berlin.—Work for all the unemployed in Germany for the next eight years will be provided in restoring the ruined mines of Northern France, says Vorwärts. This opinion is based upon the report of the German mining commission sent to France recently to ascertain the extent of the damage and which has just made public its findings.

"The task," said the newspaper, "is so great that it is sufficient to furnish work for every idle man in Europe and for everyone else engaged in European reconstruction."

"The reports show the fallacy of the theory that emigration of ten million to fifteen million persons from Germany is an economic necessity."

Amend Temperance Act

Saskatchewan Minister Informs Grain Growers That Act Will Be Changed

Saskatoon.—Criticism levelled at the government with respect to the alleged laxity in the operation of the Saskatchewan Temperance Act, has resulted in a pledge from Hon. George Langley, minister of municipal affairs, that the government would introduce legislation to enforce or amend the Act at the coming session of the provincial legislature, at the concluding meeting of Districts 6 and 16 of the Saskatchewan Grain Growers' Association.

Riots at Sale of Army Goods

Ten Thousand People Storm U. S. Armory—One Woman Dead

Buffalo, N.Y.—One woman is dead, a score were injured, and a score of others fainted as the result of a riot when a crowd of ten thousand stormed the doors of the Sixty-sixth Regiment armory here. The crowd had gathered for the opening of a sale of United States army goods.

The dead woman is Mrs. Emma Madrid, 45 years of age, who fainted in the rush and died in an ambulance on its way to a hospital. The injured were jammed up against the ground in front of the armory and many were badly cut.

Operations on Coast of Albaceros

Madrid.—Operations by land and sea for the subjugation of the rebels on the coast of Albaceros, Spanish Morocco, are being planned by the government. The captain-general of Morocco arrived in Madrid to confer with officials over the contemplated attack.

180 Gallons of Liquor Seized

Winnipeg.—Fifteen boxes containing 180 gallons of liquor, valued at \$2,000, consigned to Brown Brothers, Winnipeg, were seized at the Union station. Officials said the seizure was in line with the campaign launched a month ago against the "bootleggers' trust."

Ham Prices Drop

Quebec.—A sudden slump of eight cents in the price of cured and uncured ham greatly surprised Quebec housewives. This sudden decline is due to the order from the government. Bacon also has suffered a decline of about 6 to 8 cents per pound.

French Defeat Turks

London.—Turkish forces have been defeated by French troops in Angora (in Asiatic Turkey, 200 miles east of Constantinople), according to a Constantinople dispatch. The Turks defeated several hours' fighting. The French hospital train also was reported to have been attacked by troops under Mustafa Kemal.

30 Schooners for Dominion Govt.

Victoria.—It is reported here that the Dominion Government plans to place contracts for fifty wooden schooners with British Columbia shipbuilders, according to the report. 25 of the ships will be constructed at this port and the other half will be turned out by yards on the mainland.

Peace Treaty Effective November 28

Paris.—The treaty of Versailles, the peace treaty between Germany and the allied powers, will become effective, it is reported in well informed circles, on November 28.

The signature of the protocol and the exchange of ratifications between Germany and such allies powers as have so far ratified the treaty will take place on that date, it is reported.

Judgment Reserved On Pork Prices

Decision of Board of Commerce on Packers' Protest Will Be Announced Shortly

Ottawa.—The decision of the Board of Commerce as to whether the price prevailing on March 10 for pork should stand as the present time or not will be in writing shortly. After hearing representations from the packers, who are seeking to have the board rescind its order fixing prices at the March level, Commissioner Murdoch stated to the press that the board would reserve judgment.

Mr. McLean, representing the Harris Alabaster company, his firm convinced that the packers and the farmers fixed the price of livestock. This contention Mr. McLean disputed.

Imperials to Pass Through Canada

Veterans of Winnipeg Are Planning Reception for Them

Winnipeg.—In a day or two, three thousand British soldiers will be passing through the West on their way home from Siberia. They will arrive at the coast on the Montserrat. As this is the largest party to come across Canada, Winnipeg residents and soldiers and their auxiliaries are going to meet them with some cheer and a mark of appreciation of the worth of the imperial army to the Empire.

Fuel Is Held Up

Coal Shipments From U.S. to Be Allowed First on Priority List

Toronto.—Although coal consigned to Canada has been held up at the border, H. A. Harrington, Ontario fuel administrator, had been advised that shipments will be permitted to come forward for industries on the priority list, which are in immediate need.

Mr. Harrington has received the following message from Washington in this connection: "The United States Railroad administration has seized all coal on the coast of the United States pending distribution under priority schedule. The director of purchases for the United States railroad administration will have charge of the distribution. It is essential that you get absolute proof that the preferred industries are in immediate need of coal under receipt of which information the administration will take up the advisability of immediate release to preferred industries, according to priority list."

Sentenced to Death

Winnipeg.—Fred Strick, of Sturbridge, charged with the murder of his employer, John Kohut, by poisoning, was sentenced to hang by a jury at the assize court here and sentenced by Judge Galt to hang on January 29, 1920.

Premier Supports Viscountess Astor

Plymouth.—Lady Astor was recorded the personal endorsement of Premier Lloyd George in his capacity for a seat in the House of Commons from the Plymouth district. The Premier, it was announced, has sent her a letter of encouragement and a promise of his hearty support.

French Defeat Turks

London.—Turkish forces have been defeated by French troops in Angora (in Asiatic Turkey, 200 miles east of Constantinople), according to a Constantinople dispatch. The Turks defeated several hours' fighting. The French hospital train also was reported to have been attacked by troops under Mustafa Kemal.

30 Schooners for Dominion Govt.

Victoria.—It is reported here that the Dominion Government plans to place contracts for fifty wooden schooners with British Columbia shipbuilders, according to the report. 25 of the ships will be constructed at this port and the other half will be turned out by yards on the mainland.

Peace Treaty Effective November 28

Paris.—The treaty of Versailles, the peace treaty between Germany and the allied powers, will become effective, it is reported in well informed circles, on November 28.

The signature of the protocol and the exchange of ratifications between Germany and such allies powers as have so far ratified the treaty will take place on that date, it is reported.

Objects to Prohibition

New Jersey Governor-Elect Declares That People Voted Against Measure

Jersey City.—Governor-elect Edward J. Edwards has announced that he would use all lawful methods to prevent prohibition in New Jersey. For its enforcement by the federal government, I shall not be responsible, he said. "I consider my election as an indication of the feelings of the people of this state concerning national prohibition. They are unqualifiedly opposed to it. Holding their mandate, I shall use all the lawful methods to preserve inviolate the sovereignty of the people."

Metal Workers Of Berlin Strike

Minister of Economy Refuses to Intervene in View of Strike Order Being Issued

Berlin.—The metal workers proclaimed a general strike. The minister of economy had intended to offer mediation between the men and the employers, but he has announced that he will not intervene in view of the order to strike.

The strike is nearly general, although three thousand workers of the Siemens-Halske plant intended to go to their jobs. The strike is said to have been called in violation of rules in the metal workers' union, which require a two-thirds majority of the workers on a vote to declare a general strike.

Says Car Situation Is Bad

Prof. W. J. Elliott Also Denounces Conditions at Calgary Stockyards

Calgary.—Describing the car situation in the province as "a disaster," Professor W. J. Elliott, of the U.G.G., dealt strongly with the situation at the U.P. stockyards convened. He also denounced the conditions at the stockyard here, stating that the cars were entirely too inadequate to handle the present business.

Discussion of the business and condition of the U.G.G. also occurred some time. Further criticism of the conditions of the organization was heard, and it was stated that the financial condition of the company was not good, and that were the company to close down now it would show a loss of a quarter of a million. Officials of the organization, however, said that this did not represent the true condition of the company. The opinion was strongly expressed during the session that the cars should trade on the basis of a wholesale concern.

It was stated that the entire wealth of Alberta was about five million bushels, and officials said that the company could handle every bushel that did not go back into the ground or was fed to stock.

No Coal For Foreign Ships

Order Is Issued By U.S. Railroad Administration to Restrict Shipments

Washington.—Instituting the first general curtailment in coal transportation as a conservative measure, the railroad administration central committee ordered discontinued the shipping of foreign owned vessels in American ports.

United States owned ships and vessels flying the American flag will continue to receive coal supplies as usual for the time being, it was said, all other vessels would be compelled to wait the end of the bountiful winter supply.

New York.—There are 210 ships in the port of New York affected by the order of the railroad administration central committee regarding discontinuance of foreign tonnage bunkering. Many of these, however, are British vessels, which, it is believed, will be able to proceed to Halifax for coal.

Objects to Prohibition

New Jersey Governor-Elect Declares That People Voted Against Measure

Jersey City.—Governor-elect Edward J. Edwards has announced that he would use all lawful methods to prevent prohibition in New Jersey. For its enforcement by the federal government, I shall not be responsible, he said. "I consider my election as an indication of the feelings of the people of this state concerning national prohibition. They are unqualifiedly opposed to it. Holding their mandate, I shall use all the lawful methods to preserve inviolate the sovereignty of the people."

Distress on Lower St. Lawrence

Quebec.—Reports of distress have been received here from the coast of lower St. Lawrence, on the north and south shores, especially on the Gaspé coast and at Esquimaux point. Merchants have large quantities of supplies which they cannot send out, as there are no vessels available. An application has been made to the government to have the steamer Montcalm make several trips to the lower St. Lawrence to deliver supplies to the people before the close of navigation.

Prince Drives Own Train

Montreal.—At Havells, twenty miles west of Montreal, the Prince of Wales boarded the locomotive of the Canadian Pacific railway train and personally drove the train into Trenton.

Over A Thousand Hung To Be Tried

Revolution in Printing

New Inventions May Do Away With Type Composition

New York.—Perfection of a process which will take the place of printing and engraving was predicted as a direct result of labor difficulties in the publishing business here, by Roger W. Allen, former president of the New York business publishers association, who predicted that new machinery would soon do away with all type composition.

Investors have been busy on new devices and combining the use of old ones, said Mr. Allen. The magazines will not look to the uninitiated particularly different from issues formerly produced, he added.

Gale Sweeps Superior

Vessel Is Severely Damaged By Heavy Storm

Sault Ste. Marie, Mich.—A stiff northeast gale sweeping Lake Superior severely battered the steamer North Star, which, came down the river, covered with snow and ice. The North Star, a Great Lakes Transit Company vessel, is the first ship this season to appear here with much of such a storm. Her starboard rail was stove in and she had lost almost her entire deckload of shingles.

No other reports of vessels caught in the storm have been received here.

Million Bushels of Potatoes Frozen

Winnipeg.—According to official figures made public by the department of agriculture, about one million bushels of potatoes were frozen in the ground, meaning a loss of about a million dollars. This is a serious reduction from the figures given a few days ago, but the estimated yield this year was only five million bushels, or two million less than last year.

Last Dependents to Leave England

London.—Eight ships between them will carry 2,000 Canadian dependents this month, which will complete the first two parties to be conducted to Canada will be domestic servant emigrants, each numbering about a hundred. They will leave during the month.

Crime Conditions in Chicago

Chicago.—In addressing the Chicago association of commerce, Edwin W. Sims, president of the Chicago State district attorney, declared that Chicago, with its population of 5,000,000, has more murders in a year than England.

Dublin—Ernest Hilkey, member of the Sinn Féin parliament, who was arrested during a raid on Sinn Féin headquarters September 12, and later was sentenced to one year in prison, was released from prison after having been for five days on a hunger strike. Hilkey was taken to a hospital.

British-Chilean Treaty

Washington.—Great Britain and Chile have ratified the arbitration treaty, negotiated some months ago, the state department has declared. The treaty is to continue in force for five years, and automatically extends itself until a year after notice of intended termination by either government.

Enemy Delegates' Passage Arranged

Washington.—The German and Austrian delegates to the future peace conference here having failed to obtain passage to America, the supreme council at Paris has agreed to endeavor to arrange bookings, according to a cablegram received by the conference.

Government Rejects Offer of Miners

Plan Merging Agencies

Dominion Employment Bureau Supplant All Others

Vancouver, B.C.—The World says: "A move is on foot to place all government employment agencies throughout Canada under the supervision of the department of civil service. This would mean that the Dominion employment bureau now operated here would be operated from the S.C.R. office under the direction of the unit commander in British Columbia, and to complete the scheme as it has been mooted the provincial authorities would be asked to come into line and merge their employment services with the soldiers' organization."

Many a Man Seeks Death to the World When He Is Buried in Thought

Washington.—Organized labor's proposal for ending the coal strike through withdrawal of injunction proceedings against officials of the United Mine Workers of America was bluntly rejected here by the department of justice.

The government's answer to the miners' request, advanced by Sam Gompers, president of the American Federation of Labor, was given by Assistant Attorney-General Ames, who declared the strike itself was a violation of the law, and that as long as it continued the only place to fight it out was in court.

The labor leaders were disturbed by this refusal, and argued with the operators on one point—namely, the statement of the government's position might sway the hope of immediate settlement of the strike, involving more than 400,000 soft coal miners, in twenty-eight states.

Brussels.—Copies of the legal evidence upon which the arrest of 1,200 Germans to stand trial for offenses committed in Belgium during the German occupation will be discussed here at the peace conference at Paris. The indictments are principally based upon the executions of the Belgian civilians in Louvain and other towns, upon the executions of Belgian workers, upon the forced labor exacted from prisoners of war, upon the treatment of young men who attempted to cross the frontier to join the Belgian armies, and upon instances of pillage.

First Meeting of Peace League

Date Has Not Yet Been Fixed For Gathering

Paris.—The first meeting of the council of the League of Nations will be held in Paris, the supreme council decided. It did not, however, fix a date for the gathering. It was agreed that the council of the world body should consist of its members only matters, which must be passed upon immediately after the formal ratification of the German peace treaty.

The supreme council discussed its own uncompleted work previously to deciding upon exactly what questions must be passed upon before the peace conference ends.

Kaiser Is Well Punished

King George Gives Missionary His Views of ex-Emperor of Germany

London.—King George gave his view of the former German emperor in the course of an audience with a missionary from Armenia, Archbishop Ford.

When the missionary told the story of his captivity of four years, saying that the troubles had all been initiated by the emperor, the king, who is in the course of his tour, was well punished for all he did."

Rounding Up the Bolsheviks

London.—A headquarters bulletin from Gen. Denikin, received here, says that the Cossack troops captured 35,000 Bolsheviks between October 17 and 27. The troops of Gen. Denikin's volunteer army did the capturing of 20,000 more. The communists assert that entire divisions of Bolshevik troops are being put out of action daily.

Victory Loan Popular in U.S.

Toronto.—United States citizens were urged to subscribe to the "Victory" Bonds. Subscriptions from the other side of the border up to a few days ago totalled \$2,281,000, which was more than was collected last year in the entire campaign.

Enemy Delegates' Passage Arranged

Washington.—The German and Austrian delegates to the future peace conference here having failed to obtain passage to America, the supreme council at Paris has agreed to endeavor to arrange bookings, according to a cablegram received by the conference.

Patriotism, profit and prosperity are linked up by an investment in Victory Bonds.

THAT'S THE STUFF TO GIE 'EM

To commemorate Armistice Day, a dinner was given in the Imperial hotel last Tuesday evening by the Mirror Branch of the G. W. V. A., and some nineteen officers, non-coms, and the rank and file sat down to a spread that was about a thousand miles from anything that ever appeared on a mess room table.

Mine Host Kirk had received orders to prepare rations (not haversack) for the men, and he carried out instructions to the last word. "Cook-house" sounded at 7:30 and the troops fell to with regulation army appetites. The ration of rum came up just before the troops went over the top, but as was usually the case, someone had tampered with the issue and someone was put on half. According to today's daily (lat.) routine order, a board of enquiry will sit on the case (the one that held the grog) and the culprit will receive a just punishment, be shot at dawn—or perhaps the night before.

After the "unexpended portion of the day's rations had been stowed away, a short time was spent in reminiscences—'chowin' the rag. Pres. Tinker made a somewhat lengthy speech, complaining in a humorous manner of the heavy load he was carrying, the load being a ninety dollar debt which the club owes, and asking for support—financial, to carry on the work. Five new members joined up, so that the appeal was not in vain.

A vote of thanks was passed to Mr. and Mrs. Kirk for the most excellent dinner they had provided and also the generous manner in which they had treated the boys. The diet sheet:

M. A. C. APPOINT RINK COMMITTEE

The meeting called by the Athletic Club for Wednesday evening in the town hall to discuss the advisability of erecting an open air rink was well attended and the project is now under way. A committee comprising J. Howie, P. Tinker, C. McCormack, F. E. Murray, and W. J. Good, was appointed to go ahead with the erection of a dressing room and fencing. The rink will be 60x120 feet with a six foot fence, and the building will be 12x16 feet, the lumber for which will be purchased outright, while the fencing will be rented with the option of buying in the spring. From the McCormack Lbr. Co. The committee will get to work at once and arrangements will probably be made to have the rink lighted by electricity. It was decided to try and get the lots opposite the Imperial, these lots being already levelled off and close to a water supply.

A hockey team will be formed as soon as the ice is ready.

Does It Hurt You To Bend Over?

This is a Sign of Kidney Weakness, But Can Be Quickly Cured

Don't give up! You can be cured and made well again.

That backache and dragging weakness can be stopped for all time. These sharp attacks when bending over, and that lameness in the morning can also be overcome.

Very sore and pain due to kidney weakness will disappear quickly once you start to use Dr. Hamilton's Pills, a marvelous remedy long made famous by its strange healing effect upon the kidneys and liver.

Don't wait till that dragging pain in the loins grows worse. Start the remedy.

They will mean swelled ankles and limbs, sharp rheumatic pains in the muscles and joints, and other painful symptoms as well.

If you are always tired, have continuous headache, dizzy spells, and specks before your eyes or ringing noises in the ears—these are common symptoms that warn you of the immediate need of Dr. Hamilton's Pills of Mandrake and Butternut. Sold in 25c boxes.

Canada's Natural Resources

Potential Wealth of Dominion Is Briefly Outlined

Area, 3,729,665 square miles. Population 3,500,000.

Compared with the United States Canada is greater in size than the United States, including Alaska, but has a population less than that in the three cities of New York, Chicago, and Philadelphia.

One half of Canadians live in towns. The produce of farms, mines and fisheries are the output of a population averaging less than one man to the square mile.

The total area of land fit for tillage is estimated at 302,200,000 acres. In 1918, only one-sixth of this land (51,427,100 acres) was under crops.

Of the 179,000,000 acres fit for farm in the 451,000,000 acres comprised in Manitoba, Saskatchewan and Alberta, but 20,000,000 are under crops and 25,000,000 under live stock. There is room for settlers on 128,000,000 acres of arable land, including 23,000,000 still open for homestead entry.

Wheat—The Canadian Extension of the North American plain and the world's reserve granaries for land spring wheat. Famous Canadian varieties are "Red Fife," "Marquis," and "Predile." "Marquis" has been propagated from a single plant isolated at the Ottawa Experimental Farm.

Miss Flora Boyko Tells How Cuticura Healed Her Pimples

"My face was very ugly at first, and when that it was covered with pimples that disfigured it badly. The pimples were hard and red and very small, and they were scattered all over my face. I was very nervous and I could not sleep. These bothered me nearly a year before I used Cuticura. I used it for two months and when I had used five boxes of Cuticura Soap and five boxes of Cuticura Ointment I was healed." (Signed) Miss Flora M. Boyko, Chesham, Mass., Dec. 2, 1918.

Having obtained a clear healthy skin by the use of Cuticura, keep it clear by using the Soap for all toilet purposes, assisted by touchings of Ointment as needed. Do not fail to include the exquisitely soothing Cuticura Talcum in your toilet preparations. Splendid after bath lotion.

For free sample of Cuticura Soap, Ointment, and Talcum, write to: Cuticura, Boston, U.S.A., 20¢ bottles.

ONLY TABLETS MARKED "BAYER" ARE ASPIRIN

Not Aspirin at All without the "Bayer Cross"

For Colds, Pain, Headache, Neuralgia, Toothache, Rheumatism, and all other ailments, the genuine Aspirin, prescribed by physicians for over one hundred years, now made in Canada.

Handy tin boxes containing 10 tablets each but a few contain 20 tablets and still larger "Bayer" packages.

There is only one Aspirin—"Bayer"—You must say "Bayer" when you buy Aspirin. The trade name of Bayer is a registered trademark of Bayer. Aspirin is a registered trademark of Bayer. Aspirin is a registered trademark of Bayer.

In 1903, and has carried all before it at International Fairs and Expositions during the past half dozen years. Record production of Canadian wheat, 374,670,000 bushels. Oats—The yield of harvested merchandise in 1918 was 382,994,000 bushels. The record yield is 428,257,000 bushels.

Fruit—The famous fruit districts of Canada are the Annapolis Valley in Nova Scotia, the Niagara Peninsula in Ontario, and the Okanagan and other valleys in British Columbia. The market is world wide. Social conditions, the beauty of houses and the abundance of good land open attractive opportunities to prospective fruit growers.

Fish—Market value 1917, \$2,312,044. Increase 70 per cent. in three years. Of the three great salt water fishing areas in the world, North Atlantic, North Pacific and North Sea, Canada controls one half of two.

Transportation—Three great railroads, the Canadian Pacific, the Great Northern, and the Canadian National, control one half of two.

Water Power—Canada has water energy equal to nearly twenty million hp. Of this Quebec has 6,000,000; Ontario 5,000,000; British Columbia 1,000,000; Prairie Provinces, 4,265,000; New Brunswick, 3,000,000; Nova Scotia, 100,000; Yukon 100,000, and Prince Edward Island, 3,000. Ninety per cent. of the 20,000,000 is still running to waste.

Coal—Canada has the only two coal regions on the sea coasts of North America. The Dominion coal of Nova Scotia is estimated to last 700 years; that of Vancouver Island has been successfully operated since 1860.

The estimated coal reserves of the province of Alberta runs to over 100 billion tons, a small proportion being anthracite, while the total resources of Canada approximate 1,300 billion tons, the second country in the world.

Forestry—Next to Russia and the United States, Canada has the largest forest reserves in the world. Care is taken to preserve the timber supply by airplane scouting, wireless, telegraphy, portable power pumps, replanting, forest product laboratories, forest legislation and Dominion and provincial reserves.

Timber—The area of land covered by timber in Canada is estimated at about 500 and 600 million acres. Commercial timber covers 25,000,000 acres. Most of the balance is growth suitable for pulpwood. In 1908, 64 per cent. of Canada's cut of pulpwood was exported raw, the balance manufactured; in 1917, 70.4 per cent. was manufactured, the balance exported. Canada produces per year 2,600 tons of sawmill slabs. So far there is no factory in Canada producing these goods such as cordage, carpeting, sacks, or garments from paper yarn.

Virgin Sila Spruce is the best known material for aeroplane construction, and in the Queen Charlotte Islands it is estimated to be 10 per cent. of the timber stand. In the last year of the war, British Columbia supplied material for 30,000 planes.

Minerals—Only the Southern and western fringe of the Dominion has been prospected, and but in part. In northern extensions of Canada mineral fields are largely unexplored. Gold production in Canada for 1917 amounted to \$15,449,426; Silver, \$10,034,411; copper, \$29,588,294; Nickel, a production of 84,470,170 lbs., worth 40¢ per lb.; lead bullion and recoverable from ores exported, value \$2,571,889; asbestos, 65 per cent. of the world's needs, etc.

Furs—In the 420th year since C.

"I Wonder Would It Help Me?"

THIS question has been answered by many thousands of women who have found health and happiness in the use of Dr. Chase's Nerve Food.

Stooped shoulders, irritability, nervousness, gloomy forebodings of the future, depression and discouragement—these are some of the symptoms which tell of exhausted nerves.

In order to avoid nervous prostration or some form of paralysis it is well to get the building up process established at once by use of Dr. Chase's Nerve Food.

Send a box, 6 for \$1.75, 12 for \$3.00, to Dr. Chase, 1211, 1213, 1215, 1217, 1219, 1221, 1223, 1225, 1227, 1229, 1231, 1233, 1235, 1237, 1239, 1241, 1243, 1245, 1247, 1249, 1251, 1253, 1255, 1257,
